Delaware Wages 2021

The POLYTECH Adult Education Metal Fabrication program prepares participants for employment in a metal fabrication/welding environment.

This program is comprised of eight 72-hour courses covering safety, industry fundamentals, various welding processes and techniques, metal fitting, basic CNC, and blue print reading with AWS welding symbols.

Individuals who complete the apprenticeship program, which consists of eight courses and 8,000 hours of on-the-job training, are eligible to earn a Journeyperson credential through the Delaware Department of Labor.

Certificate Program
