Delaware Wages 2021

The Construction Laborer Registered Apprenticeship program is two years long and includes 316 hours of related classroom instruction and 4,000 hours of on-the-job training (OJT). The program is designed to prepare participants for a career in the construction industry where they will engage in broad range of construction related activities. The first year of related instruction includes the Building Construction Core – Laborer and Construction Laborer I courses. The final course of the program, which is offered in the second year, is Construction Laborer II. Individuals who complete both years of the program, including the associated OJT, are eligible to earn a nationally recognized journeyperson credential.

Apprentice Program
